

Firefly Torch

What you need:

- A small, empty, white, green or yellow plastic bottle
- Black or brown crepe paper
- White or yellow tissue paper
- A Led torch with a hook
- Four pieces of coloured cardboard
- A small piece of black electric cable, or pieces of straws, or a liquorice roll
- A long stick
- Sticky tape
- A pair of scissors with rounded ends

1. Cut away the neck of the bottle
2. Make a hole in the side of the bottle to insert and hook on the Led torch
3. Cover the lower part of the bottle with white or yellow tissue paper, fixing it with sticky tape
4. Cover the upper part with black or brown crepe paper fixing it with a lightly rolled piece of sticky tape
5. Wings: cut four pieces from the coloured card and make folds as indicated
6. Add two black round cardboard for the eyes, the electric cable for the antennas and legs, and fix the long stick to the firefly torch to make it fly.
